

4K 1 SENSOR EYEVIEW PANORAMIC BULLET

HD IP IR BULLET CAMERA
8MP / BIDIRECTIONAL AUDIO
DC12V / PoE / IP67 RATED

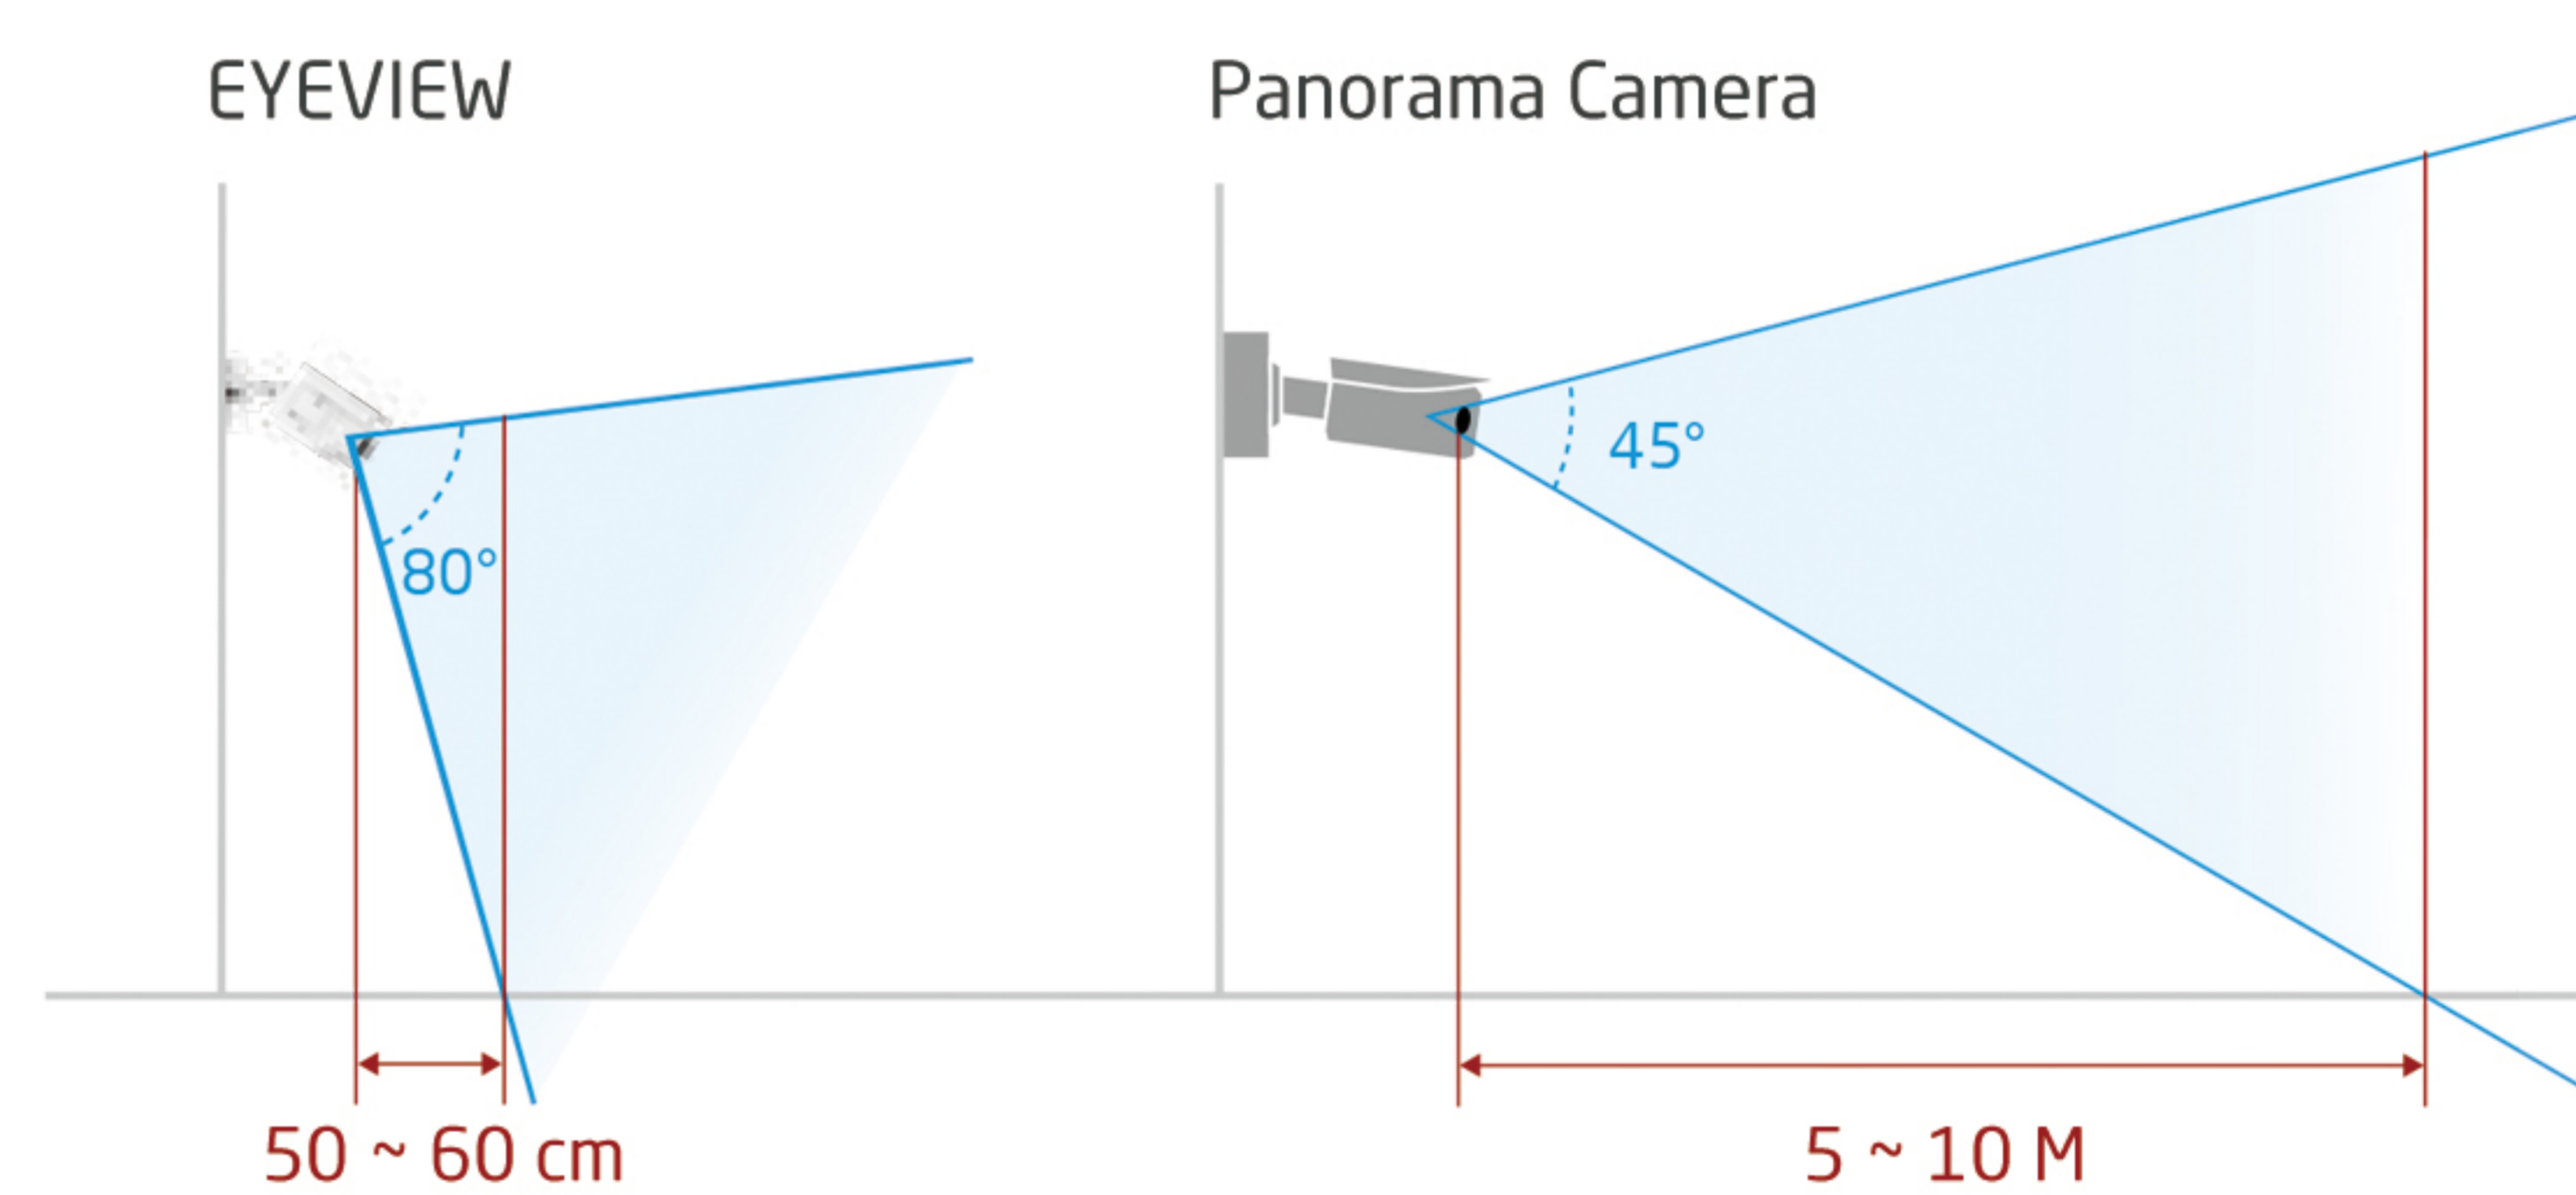

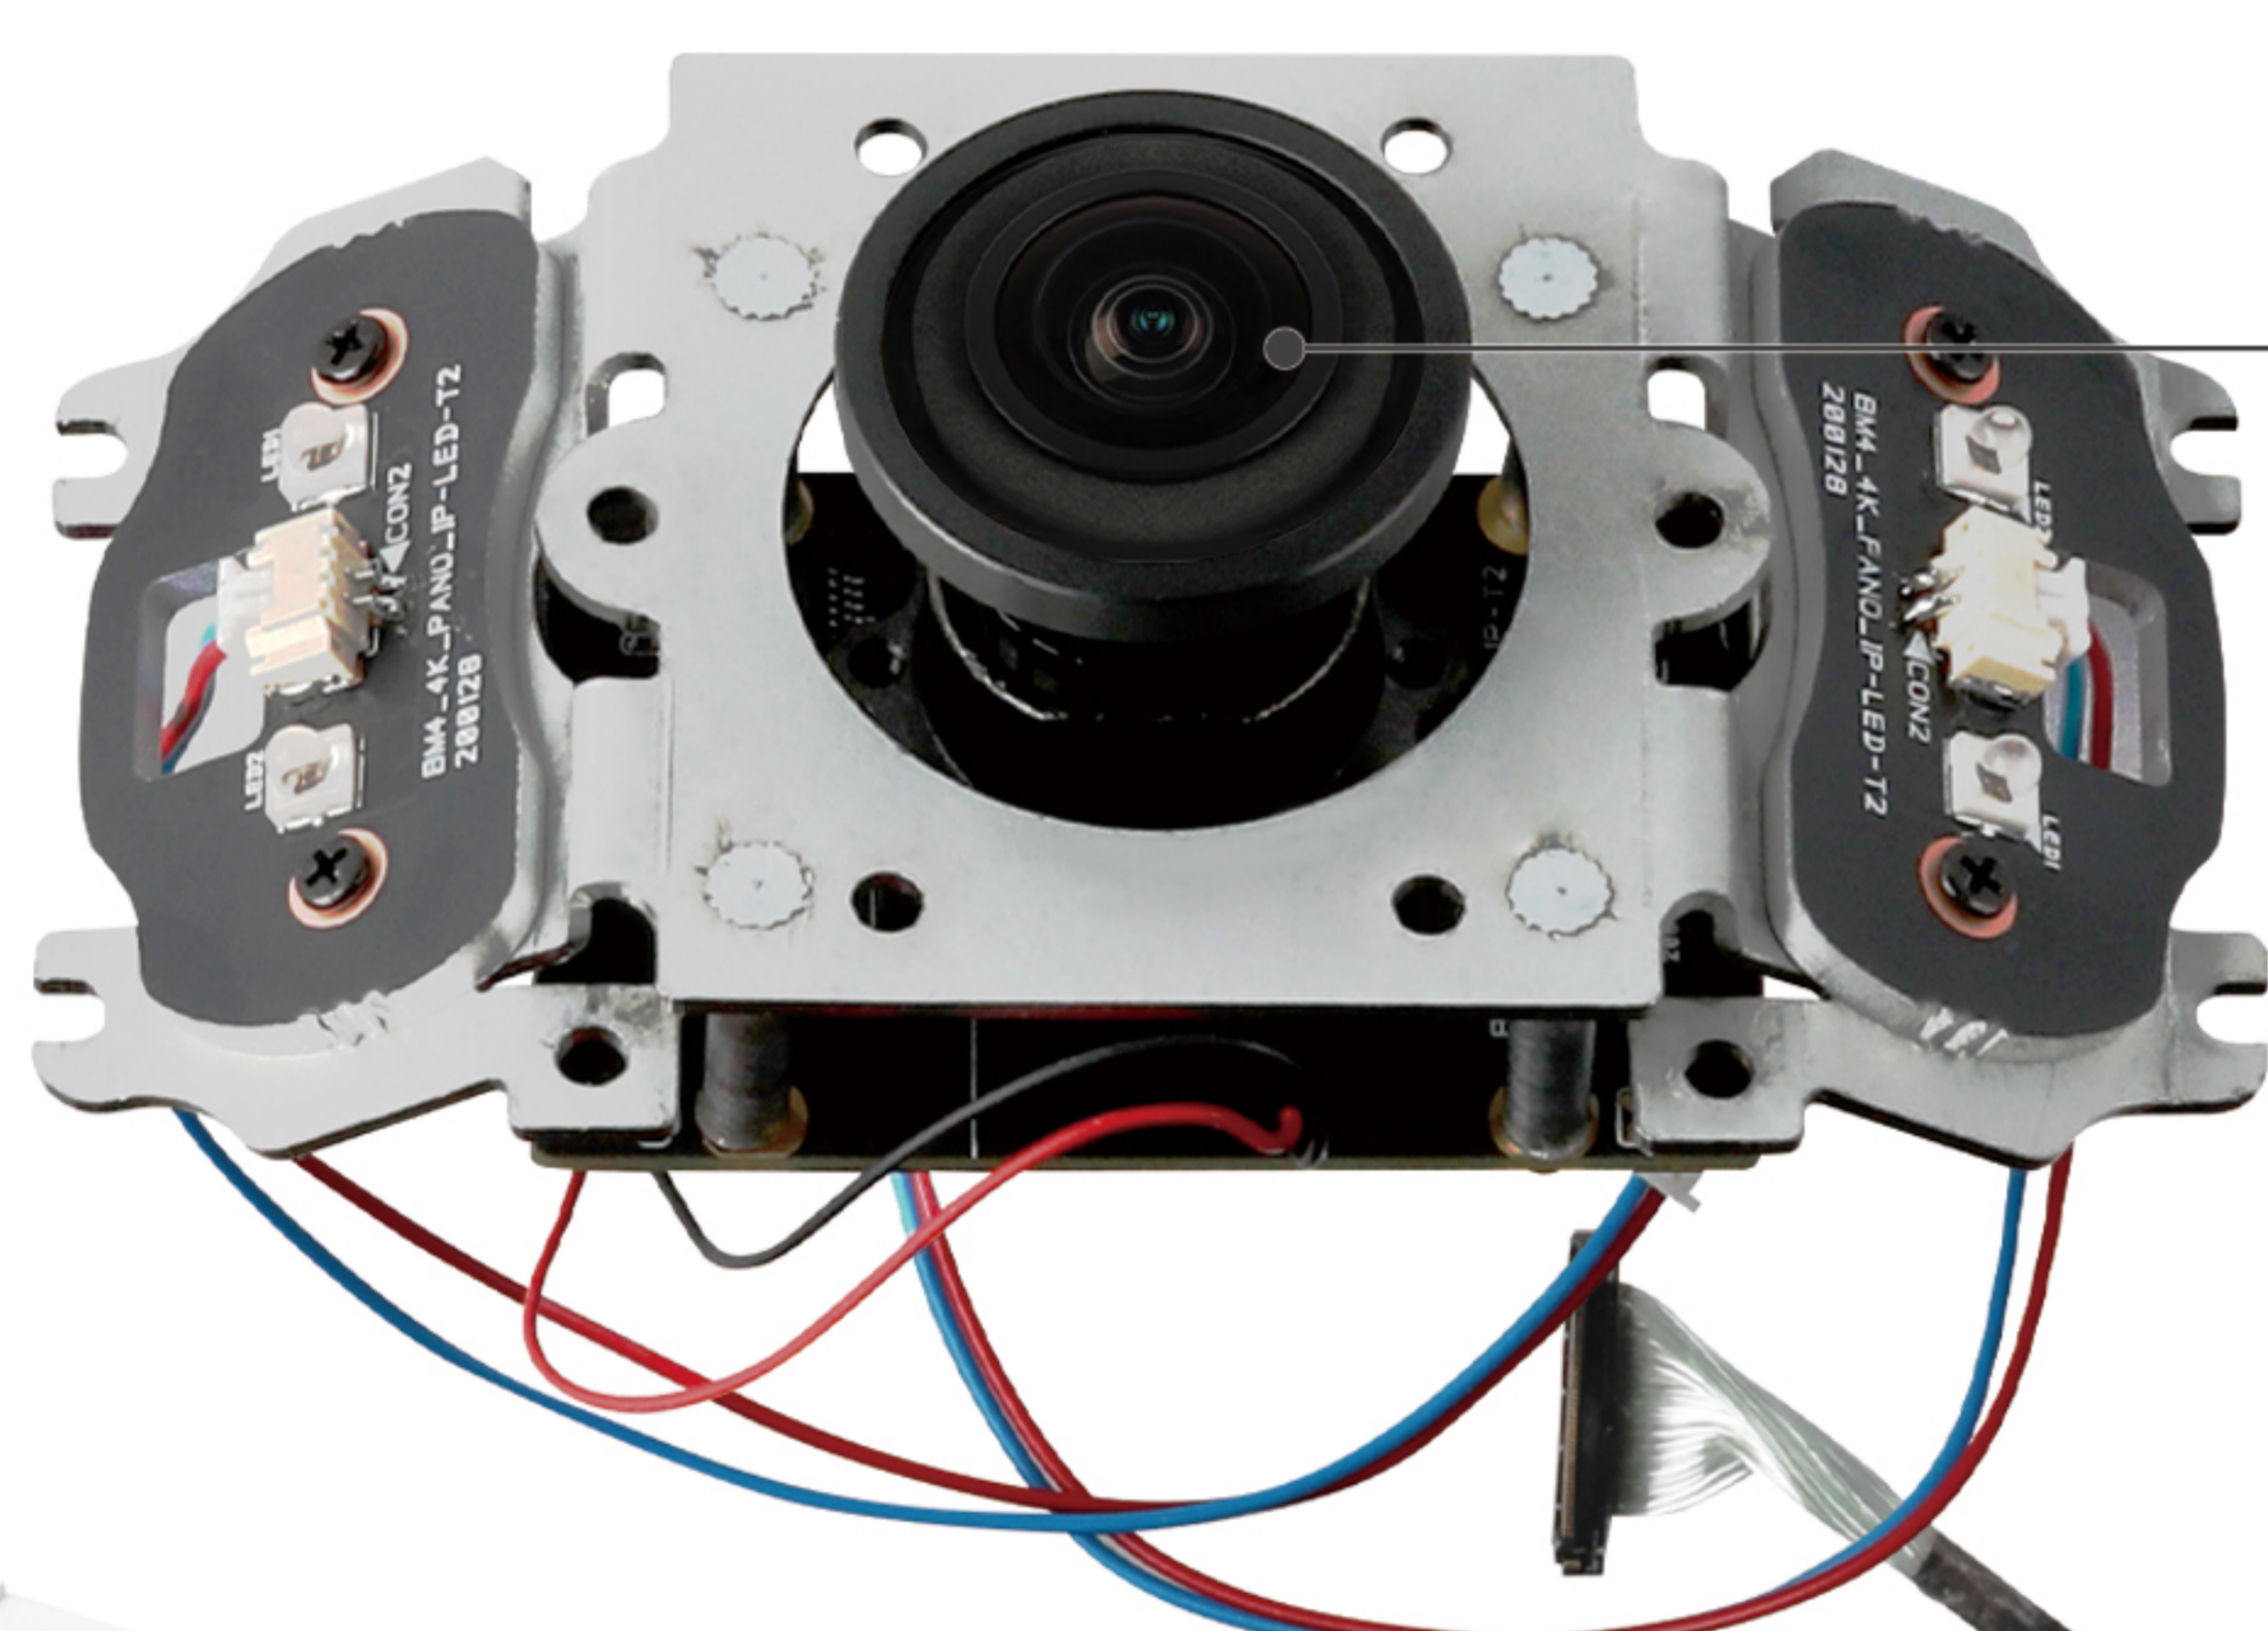

Minimize IR Reflection with Black-Window

Using a Black-window cover, IR Reflection is significantly reduced in Night mode images than normal dome cover reflection especially at night compared to the conventional transparent dome cover.

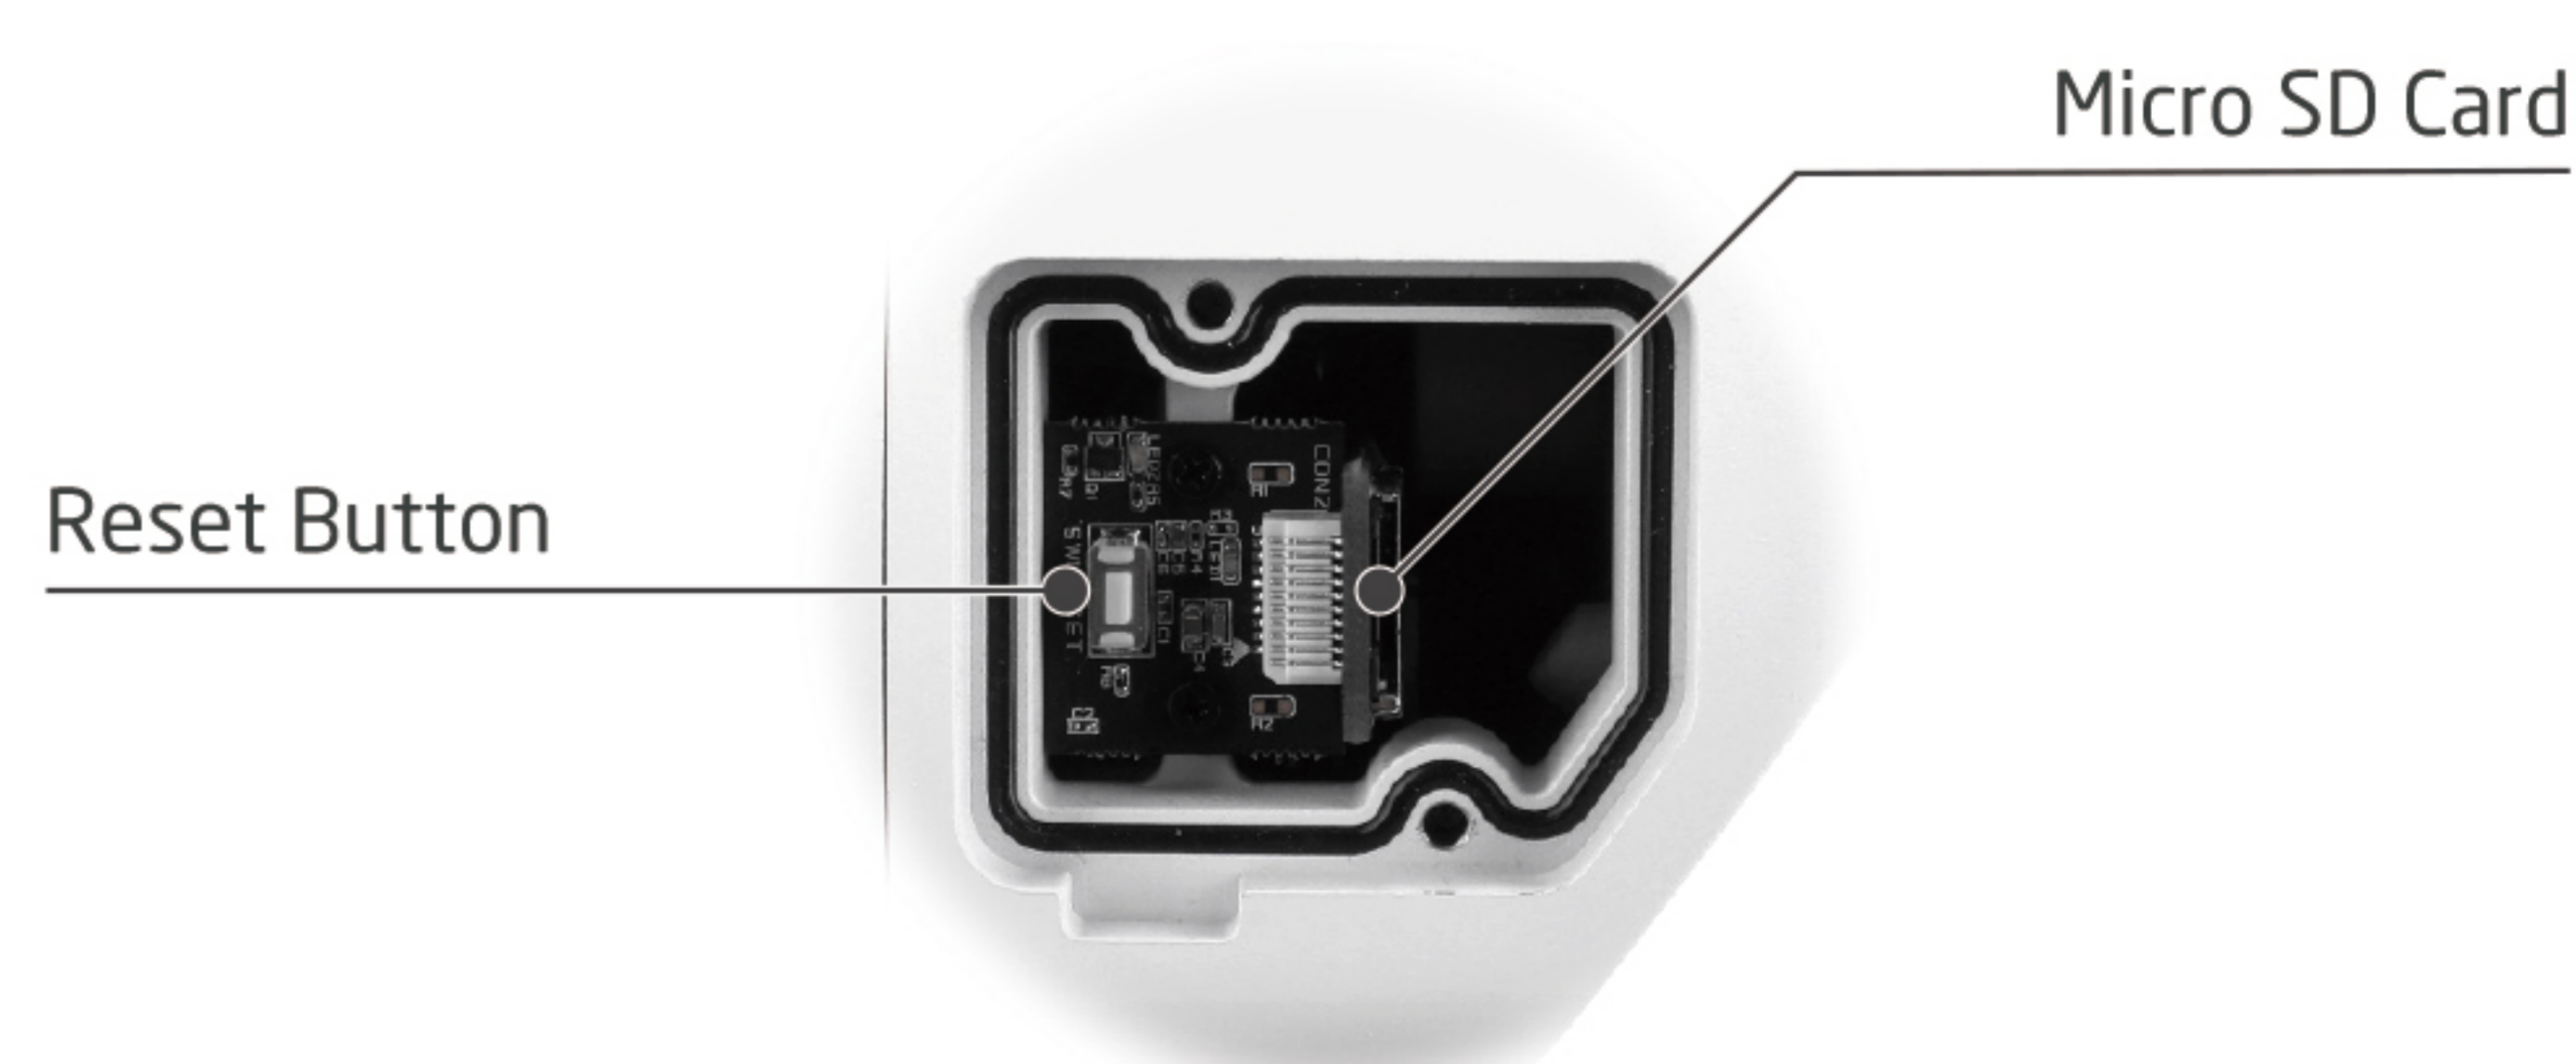

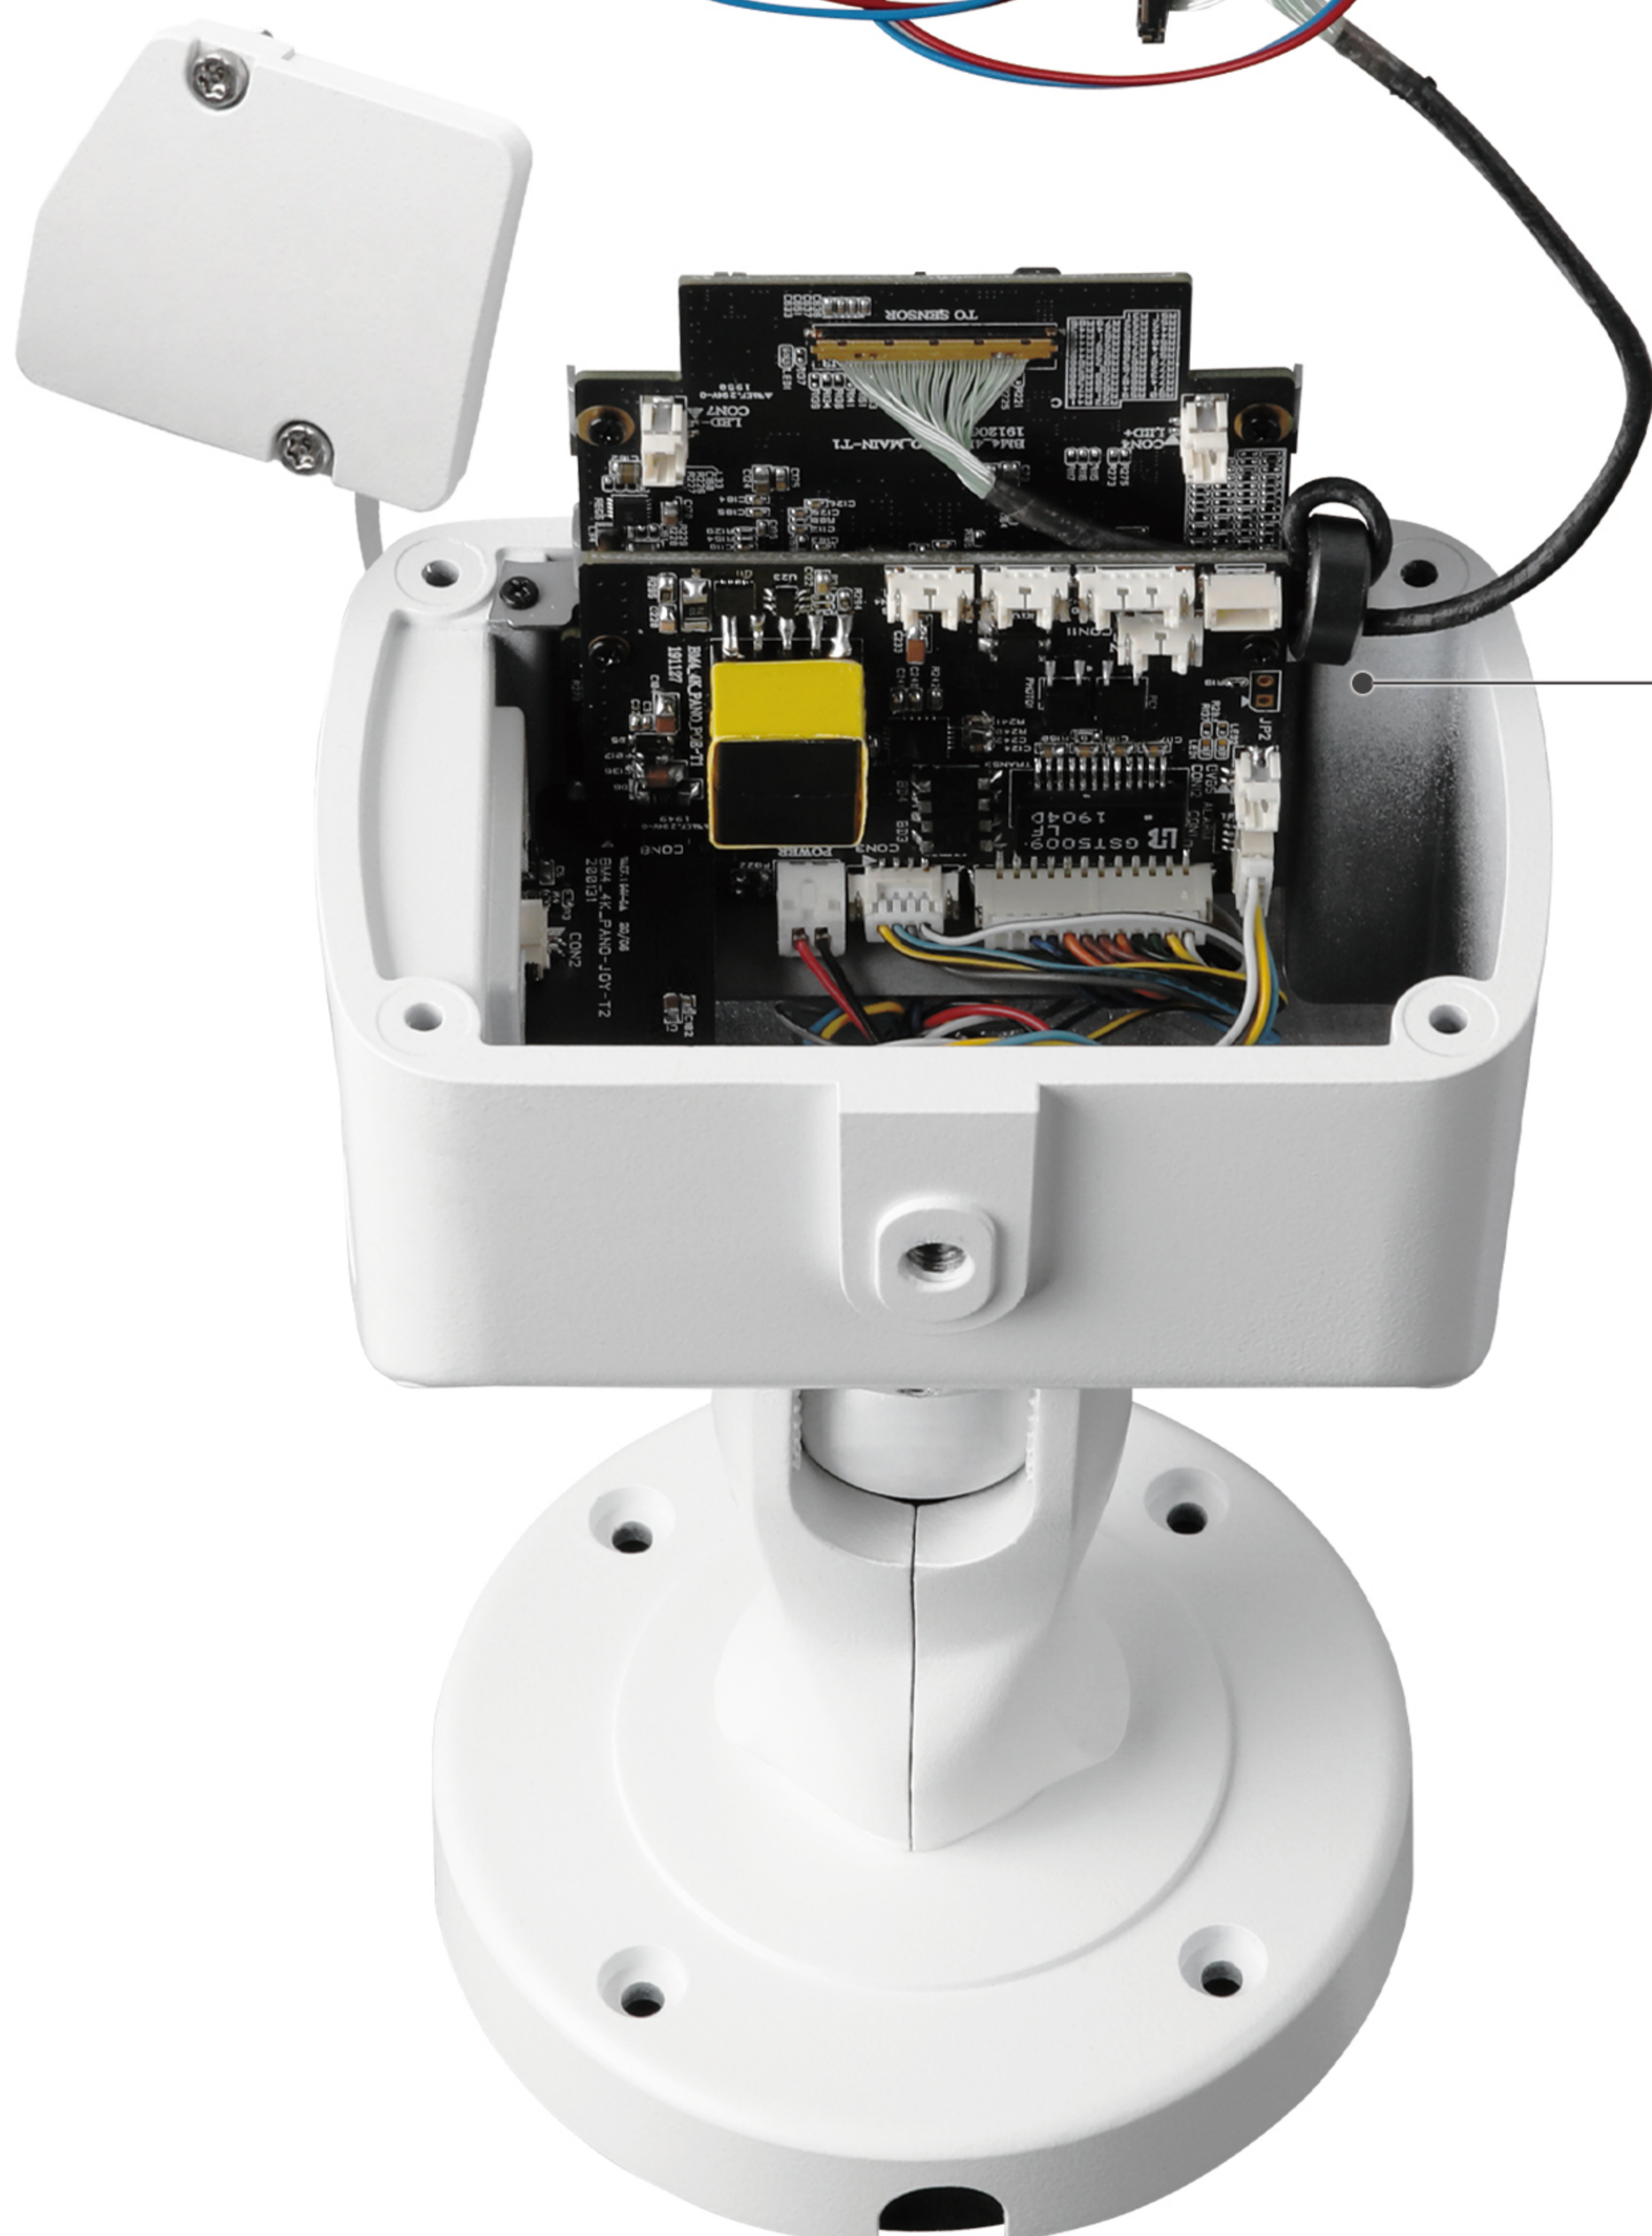

4K 180° Panoramic Eyeview

The images output from the 4K sensor supports panoramic views with minimum distortion similar to human vision compared to Fisheye's de-warping images.

Suitable for Indoors Installation

Focal Length of at least 50 to 60CM.
Compared to panoramic cameras with a focal length of at least 5 to 10M, it's much easier to install in narrow corridors or buses with the near 50 to 60CM. Also, the compact size doesn't affect interior design when installed indoors, mounts by fitting is easy to install.

External Control

You can control / access the Reset / 2ndVideo Output / Micro SD Card from the outside.
