

# AI MACHINE LEARNING ELEVATOR CAMERA

2MP IP FIXED  
MINI DOME CAMERA  
2MP / WDR / TDN / DNR / DSS / DC12V

## Detection Abnormal signs by sound & Vibration

Detects abnormalities in the elevator with sound and vibration.

## Cognition of elevator layer by the machine-running

The cameras installed in the elevator can detect vibrations and use the machine running to apprehend the number of floors. Displayed Floor information image as a message and meta data is communicated via Onvif, RTSP.

## Providing data by recording mileage for an inspection

A camera provides a total distance traveled from the installation, and this data helps to determine a time of safety inspection service.

## A versatile security camera

With only one camera, it is available to simultaneously ensure both video surveillance and floor level recognition.

## High Power LEDs

Gives maintaining as the smallest mechanical perspective with enough efficiency ways for IR impact.
